ANDREW FAYYAZ

Senior Front-End Developer

andrew.fayyaz@gmail.com | +92 315 4327281 (Call/WhatsApp) | linkedin.com/in/andrew-fayyaz

SUMMARY

Results-driven Senior Front-End Developer with extensive experience designing and developing responsive, scalable, and high-performance web applications using React.js, Next.js, Vue.js, JavaScript, TypeScript, and modern front-end technologies. Experienced in developing reusable component architectures, design systems, responsive user interfaces, state management solutions, RESTful and GraphQL API integrations, accessibility-focused interfaces, and front-end performance optimization. Strong background collaborating with designers, back-end engineers, and cross-functional teams to deliver maintainable, high-quality web applications.

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, HTML5, CSS3, SCSS

Frontend Frameworks & Libraries: React.js, Next.js, Vue.js, jQuery

React & State Management: React Context API, React Hooks, Redux Toolkit, Component-Based Architecture, Reusable Components

APIs & Integration: RESTful APIs, GraphQL, Back-End API Integration

UI & Styling: Tailwind CSS, Material UI, Chakra UI, Aceternity UI, Bootstrap 5, Responsive Web Design

Performance & Accessibility: Performance Optimization, Code Splitting, Lazy Loading, Lighthouse, Accessibility, Light/Dark/High-Contrast Themes

Build & Tools: Webpack, Vite, Git, GitHub, GitLab, CI/CD, npm, yarn

Testing: Jest, React Testing Library, Unit Testing, E2E Testing

Methodologies: Agile, Scrum, Kanban

Design & CMS: Figma, WordPress

AI Tools: Claude Code, GitHub Co-pilot, ChatGPT

Languages: English (Professional Working), Urdu (Native/Bilingual), Punjabi (Native/Bilingual)

WORK EXPERIENCE

Software Engineer — Ministry of Industry and Mineral Resources

May 2025 – Present

Riyadh, Saudi Arabia

- Developed 25+ reusable React components with TypeScript and Tailwind CSS, forming the foundation of a design system used by 3 product teams and reducing UI development time by 40%.
- Integrated RESTful and GraphQL APIs efficiently, optimizing state management to reduce unnecessary component re-renders by 25%.
- Optimized application performance through code splitting and lazy loading, achieving 95+ Lighthouse scores.
- Collaborated with cross-functional teams to identify and prioritize project requirements and ensure timely delivery of high quality solutions.
- Architected a theme system supporting light, dark, and high-contrast modes using CSS custom properties and React context, meeting accessibility requirements and increasing user preference adoption by 38%.

Software Engineer — Vaival Technologies

Jan 2023 – Sep 2024

Lahore, Pakistan

- Developed responsive and interactive web application interfaces using React.js.
- Built reusable React.js components and front-end libraries to improve consistency and support future application development.
- Collaborated with UI/UX designers to translate wireframes and visual designs into responsive, functional web components.

- Integrated front-end applications with back-end APIs and services to retrieve and update application data.
- Developed clean, modular, and maintainable front-end code following reusable component-based development practices.
- Troubleshot, debugged, and resolved front-end application issues to improve application reliability and user experience.
- Developed WordPress websites using website builders and customized front-end interfaces based on project requirements.

Freelancer (Project Based) — **ITFAQ Digital Labs** **Jul 2022 – Oct 2022**
Dubai, United Arab Emirates

- Developed reusable user interface components using Vue.js.
- Integrated Vue.js applications with back-end APIs and services for data retrieval and updates.
- Optimized web applications for improved speed, performance, and scalability.
- Collaborated with creative designers and back-end engineers to implement functional and responsive web interfaces.

Sr. Web Developer — **EZ-AD** **Jan 2022 – Jul 2022**
Michigan, United States

- Translated design team's UX wireframes and mockups into responsive, interactive features using front-end technologies.
- Built reusable code and libraries for future use.
- Developed HTML email templates.
- Optimized applications for maximum speed and scalability.
- Ensured all user input was validated before submitting to back-end.
- Collaborated with team members from creative designers to back-end engineers.

Sr. Front-end Developer — **G1G Travel Insurance** **Mar 2020 – Dec 2021**
United States

- Developed new user-facing features for web applications using modern front-end development practices.
- Built reusable front-end code and libraries to support scalable application development.
- Translated UI/UX designs into technically feasible, responsive, and interactive front-end implementations.
- Optimized web applications for improved speed, performance, and scalability.
- Implemented front-end validation to ensure user input was validated before submission to back-end services.
- Collaborated with designers and back-end engineers to deliver functional and responsive web application features.

Team Lead – Front-end Development — **Crown IT Solutions (Pvt.) Ltd** **Jan 2015 – Feb 2020**
Lahore, Pakistan

- Worked independently on individual projects while collaborating with developers in a team-based development environment.
- Translated UX wireframes and design mockups into responsive and interactive web interfaces using HTML, CSS, and JavaScript.
- Designed and developed graphical user interfaces for applications and application modules using JavaScript.
- Developed HTML email templates for web and email-based requirements.
- Built dynamic web pages and web applications using the PeerCMS closed-source content management system.
- Developed HTML5 and Bootstrap themes and templates for ThemeForest.
- Performed quality assurance and cross-browser testing to identify and resolve front-end compatibility issues.

EDUCATION

Bachelor of Science, Information Technology — Forman Christian College (A Chartered University) | Dec 2012

Intermediate in Computer Science — Forman Christian College (A Chartered University) | Aug 2007

Matriculation in Computer Science — New English Secondary School | Jul 2005
